

CAS 125: High-Power LED-Testing

- » CAS 125 spectroradiometer, optimized for 24/7 LED production
- » IES LM-80 compliant measurement of high-power LEDs
- » Recipe mode for extremely short testing times
- » Low straylight and high optical throughput
- » LED die testing on wafer level

**Applications:
Reliable & fast characterization
of high-power LEDs and
LED modules**

**Large global customer base,
worldwide service!**
